

Applied Technical Services performs the following types of VOC Emissions Testing to the standards listed below:

## Dynamic Thermodesorption

- VDA 278 (A2LA Accredited)
- General Motors – GMW 15634

## Bag Testing

- Ford – BZ-108-01
- Honda – 0094Z-T7S-0000
- Hyundai/Kia – MS300-55
- Mazda – MES-CF 0806B
- Nissan – NES M0402
- Toyota – TSM 0508G, BSDM 0512, BSDM 0508

## Static Headspace

- VDA 277
- Ford – BZ 157-01
- Volkswagen – PV 3341
- Volvo – VCS 1027,2749 / STD 1027,2714, VCS 1027,2759

## Formaldehyde & Aldehydes

- VDA 275
- Ford – FLTM BZ 156-01
- General Motors – GMW 15635
- Volkswagen – PV 3925
- Volvo – VCS 1027,2739

## Micro Chamber

- ISO 12219-3
- ASTM D7706
- Chrysler – CS13398
- Ford – FLTM-BZ 151-01

## Chamber Testing

- General Motors – GMW 16853
- Subaru – TS420-00-033

## Odor

- VDA 270
- BMW – GS 97014-4 (2018)
- Nissan – NES M0160
- Volkswagen – PV 3900

## Fogging

- DIN 75201
- Ford – SAE J 1756
- Toyota – TSM 0503 G
- Volkswagen – PV 3015
- Volvo – VCS 1027, 2719

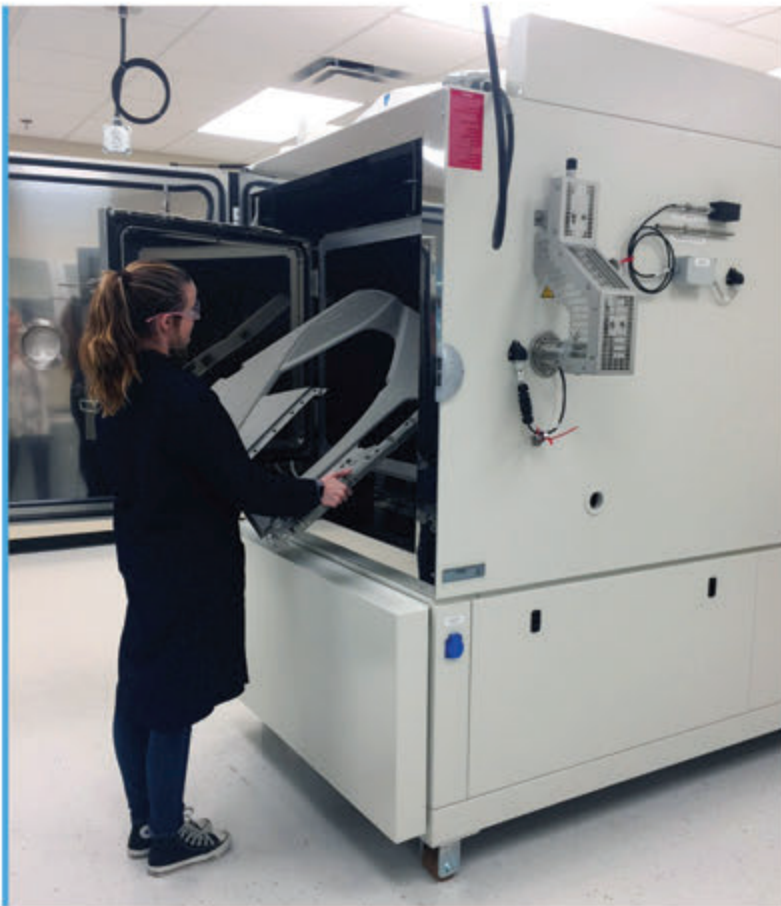

## We take a closer look.

Our experienced staff has the technical knowledge to assist Tier 1 and Tier 2 OEM suppliers with bringing their products to market. ATS continually adds to our scope of automotive testing in order to meet our goal of becoming a one-stop-shop lab for OEM's.

## Applied Technical Services

Founded in 1967, ATS is your one-stop shop for automotive testing needs. Our laboratory provides extensive analytical capabilities and we are ISO 17025 accredited.

ATS has been an industry leader in automotive testing for many years. In order to ensure compliance, our team of chemists regularly tests materials according to various emission testing specifications set forth by the automotive industry. We can quickly and efficiently fulfill the VOC testing requirements of manufacturers and OEMs, and will conduct a failure analysis should such a step become necessary. We pride ourselves on providing a comprehensive testing experience whether you require

pre-production certification or product performance testing. ATS has the capacity to handle your emissions testing needs. Please contact us to discuss your specific VOC testing needs or to schedule a tour.
